WHAT WE DID...

Swansea University's Academi Hywel Teifi has launched its redeveloped app, Gofalu Trwy'r Gymraeg, (Caring through Welsh). The award-winning app, which helps healthcare workers use the Welsh language in their day-to-day work, has been so popular that a new comprehensive version has been developed thanks to funding provided by the Coleg Cymraeg Cenedlaethol

"This update provides a better learning experience for the users. The original app was built almost five years ago, so this is an opportunity for us to improve its quality and content.

There are additional sections of terminology and expressions that are specific to doctors, health visitors, care workers and physiotherapists. The phrases are spoken by the Welsh language tutor and TV presenter, Nia Parry, a former Swansea University student."
